Enrichment Programs

FALL 2017 AFTER-SCHOOL ENRICHMENT

Slime-ology

What could be a more fun way to explore science than creating slime?! Each week, students will learn how to create a new type of slime, as well as cover a new area of science – from learning about polymers, to observing physical changes versus chemical changes, to exploring biology and natural places we can find slimy substances – this class has it all! Students will also get to take home their new type of slime they create each week.

Class Times: Tuesdays 2:30-3:30 (Supervision provided after school, pick up at main entrance at 3:30)
Class Dates: 9/26 - 11/21 (No class 10/31, 8 week program)
For Grades: K-5 (Grouped into two classes: K-2 and Gr 3-5 for age appropriate instruction)
Class Fee: \$150 (All supplies included in the fee)
Registration: REGISTRATION MUST BE DONE ONLINE at www.smartycatkids.com
***Space is limited! Register early to ensure your child's spot in the program.**

Aeronautics Exploration

During our new Aeronautics Exploration program, we will explore the science of flight! Students will design, build, and test machines that are capable of flying through the air. We will test various types of planes, gliders, and rockets in order to explore engineering and the physical forces that affect the flight of our machines.

Class Times: Thursdays 2:30-3:30 (Supervision provided after school, pick up at main entrance at 3:30)
Class Dates: 9/28 - 11/16 (8 week program)
For Grades: K-5 (Grouped into two classes: K-2 and Gr 3-5 for age appropriate instruction)
Class Fee: \$150 (All supplies included in the fee)
Registration: REGISTRATION MUST BE DONE ONLINE at www.smartycatkids.com
***Space is limited! Register early to ensure your child's spot in the program.**

***All classes include 10 minutes for snack. Please have your child bring a nut free snack.**
***Supervision is provided immediately after school. Pick up is at 3:30 at the main entrance.**
